

MOHAMMADRAFI B

Technology Programme Leader & PMO Head

Chennai, Tamil Nadu, India | mohammadrafi.b@outlook.com | +91 98409-52716 | [linkedin.com/in/mohammadrafi-bhajisahib](https://www.linkedin.com/in/mohammadrafi-bhajisahib)

PROFESSIONAL SUMMARY

Technology Programme and PMO Leader with 21+ years of experience across product and services organizations, spanning Programme Management, PMO Governance, Cybersecurity, Professional Services, Customer Management and Technology Delivery. Experienced in managing complex technology programmes across global environments — owning programme planning, governance, milestones, RAID management (risks, issues, dependencies), resource planning, executive reporting, escalations and production readiness. Led a USD 1.5M banking cybersecurity programme, oversaw a USD 3M strategic account for approximately six years, and scaled a delivery organization from 4.5 to 47 members through service expansion and cross-selling. Skilled at coordinating Engineering, Product, Security, Professional Services, Technical Account Management, Support, Sales, Business and Partner teams across APAC, UK, India and other global locations.

KEY ACHIEVEMENTS

- Led **10+ Technical Account Managers** across APAC, the UK, India and the UAE, managing customer engagements with revenues ranging from **USD 80K to USD 3M**.
- Led a **USD 1.5M banking security programme** for one of India's largest banks, spanning Retail, Corporate and Merchant Banking.
- Managed a **USD 3M strategic account for six years**, driving delivery, stakeholder engagement and long-term customer value.
- Scaled the delivery organization from **4.5 to 47 members** through service expansion and strategic cross-selling.
- Delivered **15+ enterprise mobile banking application production go-lives**, coordinating cross-functional teams through end-to-end delivery.
- Maintained an average **Customer Satisfaction Index (CSI) of 4.5/5**, demonstrating consistently strong customer outcomes.
- Built a **cost-effective resource onboarding model** by developing junior talent and validating capabilities through targeted customer POCs, reducing reliance on experienced resources during account ramp-up.
- Directed programme governance across **risks, issues, dependencies, milestones, escalations and executive reporting**, ensuring transparency and timely decision-making.
- Received multiple **performance awards**, including **Star Gladiator, Role Star and First Victor**, in recognition of exceptional performance and contribution.

CORE COMPETENCIES

Program & PMO Governance • RAID & Risk Management • Technical Account Management • Scrum Master & Agile Delivery • Stakeholder & Executive Reporting • Cybersecurity & Mobile App Security • Production Readiness & Go-Live Management • Account Growth & Retention • Pre-Sales & Solution Consulting • Contract & SOW Structuring • Cross-Functional Team Leadership

TECHNICAL SKILLS

Languages & Frameworks: ASP.NET Core, MVC, C#, C++, Entity Framework, Angular, React, Node.js

Cloud & Infrastructure: Microsoft Azure (App Service, WAF, AD, Functions, LUIS), AWS (Cognito, Lambda, S3)

Tools & Platforms: JIRA, Confluence, Azure DevOps, Microsoft Project, Power BI, Figma, Docker, SonarQube, Salesforce

PROFESSIONAL EXPERIENCE

Head & Director of PMO | V-Key Pte. Ltd.

Apr 2024 – Apr 2026 • Global Security Accounts

- Managed 10+ Technical Account Managers across APAC, the UK, India, and the UAE, overseeing geographically distributed teams and projects ranging from USD 80K to USD 3M in revenue.

- Led global PMO operations for strategic security accounts across Singapore, Korea, Vietnam, Indonesia, Thailand and the UK, managing regional Technical Account Managers and end-to-end program governance.
- Directed programme governance covering RAID (risks, issues, dependencies), milestones, escalations and executive reporting.
- Managed production security incidents and root-cause analysis, coordinating with Fraud Detection and Network Security teams.
- Coordinated responses to security vulnerability audit findings and tracked remediation through closure.
- Structured region-specific customer contracts with legal, finance and regional stakeholders to meet regulatory and banking compliance requirements.
- Introduced a structured questionnaire completed collaboratively by Sales, Legal, Finance, and PMO, enabling faster and more efficient contract preparation.
- Supported pre-sales through solution strategy and commercial discussions; led reseller and channel-partner onboarding, training and enablement.

Technical Account Manager | V-Key Pte. Ltd.

Nov 2022 – Mar 2024 • Mobile App Security Projects for India's largest Bank

- Led a USD 1.5M banking security programme for one of India's largest banks across Retail, Corporate and Merchant Banking.
- Partnered with banks and financial institutions to secure mobile applications using patented Secure SDK technology.
- Managed 15+ enterprise mobile banking application production go-lives.
- Delivered strategic guidance and customized security solutions against vulnerabilities, driving product adoption and customer success.
- Managed contract and SOW creation, SDK integrations and product launches for engagements across native Android & iOS, Cordova, React Native and Flutter.
- Established a centralized knowledge base for self-learning and reducing the repeated training requirements.

Corporate Technical Trainer / Freelance Consultant | Independent

Jan 2022 – Nov 2022

- Designed and delivered technical training programs across employee groups, tailoring materials with real-world examples for each audience.
- Worked with subject-matter experts to keep content accurate and closed skills gaps identified by cross-functional teams.

Scrum Master & Account Manager | Aspire Systems India Private Limited

Mar 2015 – Dec 2021 • Finland-based ECM Solution — Leading Information Management Platform

- Oversaw a USD 3M strategic account for approximately six years, serving as Scrum Master, Error Manager, Account Manager and Implementation Line Manager.
- Scaled the delivery organization from 4.5 to 47 members through service expansion and cross-selling, spanning development, usability, testing, mobility, open source and support.
- Built a cost-effective resource onboarding model, developing junior talent and validating capability through targeted customer POCs — reducing reliance on experienced resources during account ramp-up.
- Owned project budgeting, agile delivery, cross-selling and issue prioritization; ran all Scrum ceremonies.
- Worked across ASP.NET, jQuery, SQL, C++, Node.js, Salesforce/Teams/SharePoint add-ins, REST, RPC, gRPC, Electron and Azure Functions/WAF/App Service.

EARLY CAREER EXPERIENCE (2005 – 2021)

Aspire Systems India Private Limited — multiple client engagements across cybersecurity, automotive, insurance, retail, fleet tracking, government reporting and healthcare software.

Line Manager — US-based Cybersecurity Company

Oct 2020 – Nov 2021

Delivered antivirus, threat detection and data protection solutions. Technologies: C#, .NET Core Web API, AWS Services. Team of 3.

Project Manager — US Quick-Lube Industry Platform

Jan 2020 – Aug 2020

Built the application handling sales reporting and service-team performance at head-office and store level. Technologies: ASP.NET MVC, AngularJS, SSRS, AWS Cognito, AWS Lambda. Team of 8.
